MYSTICS' SHEET

Casting Spells

Roll **2D6**, and add the **Casting** ability score of the Mystic.

- If the roll is a **natural 2**, the spell fails. **1 Strand** is expended.
- If the result is below the Incantation score for the spell, it fails. **No Strands** are expended.
- If the result is *equal to or above* the **Incantation** score for the spell, the spell succeeds. **1 Strand** is expended unless the spell is listed as "**Simple**".
- If the roll is a **natural 12**, the spell succeeds. **No Strands** are expended.

Mystic :				

Target Types

Ally: Any warband figure or ally. Can be the Mystic themselves.

Personal: Affects only the Mystic themselves.

Enemy: Any enemy figure

Ground: Any point on the ground.

None: No target is selected.

Spell Durations

Immediate: The spell takes effect when it is cast, but lacks a lasting effect.

Activation: Lasts until the figure has finished its next activation.

Full Round: Lasts until the Tracking Phase of the *following* battle round.

Battle: Lasts for the rest of the battle.

Some spells may have unique target or duration factors.

Simple and Taxing spells

Additionally, some spells have special conditions noted after the spell name:

*** Simple:** The spell does not cost Strands to cast, though a **natural 2** will still expend **1 Strand**.

† Taxing: This spell is particularly draining to cast, and can only be cast once per battle.

Desperation Casting

If a casting roll fails, the Mystic may spend **1 point of Will** to bolster the spell. If this is used, a **+2** is added to the roll retroactively.

Ether Burn

If a Mystic is required to spend a Strand, and has none available, the Mystic is *Wounded* instead.
